

# North Shore Residents

## Water is Safe To Drink

### Important for Residents

- The BWS water system is safe.
- Flooding may have impacted plumbing on private property.
- If your property experienced flooding:
  - Check for damaged pipes
  - Run water to flush lines
  - Contact a licensed plumber if you notice unusual odors, leaks or damage.

**Plumbing on private property is the responsibility of the property owner.**

### What BWS Did

SCAN ME

- BWS crews inspected the BWS North Shore water system.
- No damage was found to BWS infrastructure.
- No pathway for flood-related chemicals entered the system.
- All testing results confirmed the water is safe for consumption.
